# Roller shutter cabinets
Optimum solution for confined spaces

The roller shutter cabinets provide full access to all stored items in tight spaces.
Thanks to individual configuration options, the roller shutter
cabinets are optimally suited for use in many different work areas.

Direct access to all stored items
The smooth-running shutter which is operated with one hand stops at any height without fixing and provides access to the entire storage area.

ℹ Benefits

- High-quality welded sheet steel construction
- Optimum solution for confined spaces because no functional area is required
- Direct access to all stored items
- Smooth-running shutter with user-friendly push handle and integrated push handle cylinder lock
- Shutter stops at any height without fixing
- Individual fitting and adjustment options
- Retrofitting with drawers and pull-out shelves possible
- 12 standard colours at no extra charge (see page 128/129)

"The Lista roller shutter cabinets provide access to all stored items without any doors protruding into the room – they are the optimum solution for confined spaces."

Cabinet housing and roller shutter
with Key Lock

H ↑ 1950 mm
Clear height 1635 mm

Cabinet housings for roller shutter
The cabinet housings are made of high-quality, welded sheet steel. The inside fittings of the cabinet are easy to customise thanks to the 25 : 25 mm divisions. The installation of drawers and/or pull-out shelves is possible with a width of 1,000 mm.

Roller shutter
The roll-up mechanism of the roller shutter is designed so that the shutter can be pushed upward or downward easily and it stops at any height without fixing. The roller shutter is prepared for the Key Lock locking system and its colour is similar to light grey, RAL 7035. The colour of the strike plate is variable.

i Tip

Easy to change cylinder
Using the removal tool the cylinders can be easily removed and changed to extend or re-organise the locking set-up.

1. Insert key
2. Turn key 45 degrees clockwise
3. Insert removal tool over the cylinder
4. Pull out removal tool and cylinder together
5. Turn key of new cylinder 45 degrees clockwise
6. Insert new cylinder
