Heavy-duty cabinets
Strong enough for heavy weights

Lista heavy-duty cabinets are the ideal solution for the storage of heavy materials on adjustable shelves, pull-out shelves and in drawers. With retracting doors, hinged doors, vertical shutters, or in an open design – all current access protection solutions are possible. Transparency in the warehouse with simultaneous access protection is possible thanks to retracting doors or hinged doors with a viewing window opening.

High housing stability
The welded sheet steel construction with integrated support pillar system guarantees a high level of stability in the heavy-duty specification.

Drawers
The drawers of the heavy-duty cabinets have a load-bearing capacity of 200 kg. The versatile drawer partition material allows subdivision perfectly adapted to the parts to be stored.

Optional retracting door
The heavy-duty cabinets are also available with retracting doors. When the door is opened, the wing disappears in the housing, providing optimum access to all stored items.

ℹ Benefits

- Doors with user-friendly clasp lock, many access protection options and optional specifications with viewing windows to increase transparency in the warehouse
- Individual fitting and adjustment options with adjustable shelves, pull-out shelves and drawers
- Pull-out shelves and drawers compatible with Lista drawer-cabinet and Lista drawer-shelving systems
- Tilt protection provided by single pull-out blocking system for cabinets with retracting doors
- Choice of Key Lock or Code Lock locking system

Technisch Bureau Magema B.V.   www.magema.com   Telefoon: 0172-603484

The Lista heavy-duty cabinets provide maximum stability with a load capacity of 1500 kg per housing. Many adjustment and configuration options make this cabinet a strong all-rounder.

Colours
Cabinets available in 12 standard colours. When ordering, please use the desired three-digit colour code (instead of XXX). Customised colours on request.

Pre-configured cabinets
with retracting solid sheet or viewing window doors

Art. no. **59.553.010**
Light blue, RAL 5012

ℹ Features

- Cabinet housing open, with retracting doors, hinged doors, or roller shutter
- Hinged doors flush-fitting, folded from one piece, with pintle bearing assembly
- Retracting doors, folded from one piece, with hinge bearing assembly
- Roller shutter colour: similar to light grey, RAL 7035; Drawer and pull-out shelf colour: grey, NCS 4502-B
- Highest maximum load capacity: housing 1500 kg, adjustable shelves 160 kg, drawers and pull-out shelves 200 kg
- Choice of Key Lock (separately lockable) or Code Lock; for further locking options see individual configuration
- Durable powder coating

ℹ Design diversity

- Housing height: 1950 mm; Housing widths: 1100, 1146 mm; Housing depths: 641, 690 mm
- Cabinet accessories: adjustable shelves, shelf dividers, drawers, pull-out shelves, base
- Partition material sets for drawers

Cabinet housing and retracting doors
## with Key Lock or Code Lock

W ➡ **1146 mm**

Cabinet housing
The cabinet housing is made of high-quality, welded sheet steel and has a sturdy design. An integrated support pillar system allows interior fitting with 25 : 25 mm divisions, enabling installation of adjustable shelves, drawers and / or pull-out shelves. Tilt protection is provided by the single pull-out blocking system.

Retracting doors
The sheet steel doors, which retract into the cabinet housing and are multiply folded, come with hinge brackets and are available either in solid sheet or with viewing window glazing as desired. The retracting range is 90°. The projection of the doors when open is 85 mm. The retracting doors are prepared with a recess for Key Lock or Code Lock.

i Tip

Heavy-duty cabinets with roller shutter
The heavy-duty cabinets with roller shutter are the ideal solution especially for confined spaces. In just a few simple steps the entire storage space can be accessed without doors protruding into the aisle area. The drawers can be individually equipped with matching partition material.

Cabinet systems

Cabinet housing with hinged doors or roller shutter
with Key Lock or Code Lock

W ➡ 1100 mm

Cabinet housing
The cabinet housing is made of high-quality, welded sheet steel and has a sturdy design. An integrated support pillar system allows interior fitting with 25 : 25 mm divisions.

Hinged doors
The doors are available either in solid sheet or with viewing windows as desired. They are multiply folded, flush-fitting and are flush with the cabinet housing. The doors are hinged on a pintle bearing assembly. The opening angle is approx. 115°. The hinged doors are prepared for installation of Key Lock or Code Lock.
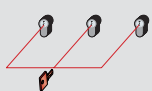

Roller shutter
The roll-up mechanism of the roller shutter is designed so that the shutter can be pushed upward or downward easily and it stops at any height without fixing. The roller shutter is prepared for the Key Lock locking system and is available in a colour similar to light grey, RAL 7035. The colour of the strike plate is variable.

54 x 27 E

918 x 459 mm
Anti-slide mat

Coating: PVC special soft foam,
extremely tear resistant and hard-wearing.
Size 900 x 450 mm (W x D), 3mm thick.

Designation	Art. no.	
Anti-slide mat, anthracite	**119.119.000**	

Blank PE foam insert

Material properties: PE 35 laminated, heat resistant to
112 °C, non-flammable, resistant to oil, petrol and
cleaning materials, environmentally friendly.
Size 906 x 447 mm (W x D).

Designation	Art. no.	
Foam insert, black, 22 mm thick	**80.923.000**	
Underlay, blue, 3 mm thick	**80.924.000**	
## Plunge cutter

For accurate working with the blank PE foam insert.

| Designation	Art. no.	
Plunge cutter 20 mm	**80.920.000**	
Plunge cutter 50 mm	**80.921.000**	
Plunge cutter "U" 20 x 20 mm	**80.922.000**	

Cabinet systems

i Tip

**Instructions for use of the blank PE foam inserts**
Trace an outline of the item to be stored onto a (cardboard or paper) template.

Cut out the template and fix to the foam insert, cut out with a carpet knife or plunge knife.

If necessary, also cut through from the back, remove piece.

If necessary, cut a slice lengthwise from the cut-out shape and insert back into the space (to reduce the depth of the support).

Partition material sets excluding clip-on label holders.
For effective heights of the partition material, see

>> **For partition material and labelling
